Florilège de rituels en classe de langue

Sylviane Koechlin

Programme Jules Verne 2009-2010

Introduction

Cette compilation est issue de l'observation de classes (*Years 2 and 5*) lors de l'année scolaire 2009-2010 passée en Angleterre grâce au programme Jules Verne.

Ces activités sont destinées aux enseignants des cycles 2 et 3. Elles se veulent confortables à comprendre et à adapter, peu gourmandes en temps et matériel.

Elles visent la mémorisation des éléments enseignés préalablement.

Elles s'insèrent aisément dans un emploi du temps, au titre de rituels - *routines* en anglais. Leurs particularités - réitératif et ludique- doivent permettre à l'enseignant de progressivement s'effacer afin de laisser la parole et l'action à ses élèves.

Ceux-ci entrent alors en interactions sociales dans une situation authentique de communication où la langue anglaise devient le vecteur nécessaire à la réalisation de la tâche exprimant ainsi l'esprit du CECRL et de la perspective actionnelle.

Enfin, la présentation des activités déclinée selon le domaine langagier sollicité permet à l'enseignant d'équilibrer ponctuellement ses objectifs d'apprentissage, voire de différencier lorsque ses élèves ont acquis suffisamment d'autonomie.

Il appartient à chaque enseignant de choisir et d'adapter ces rituels selon le contexte de la classe et de sa programmation.

28c3	<u>Noughts and Crosses</u> Transfert De mots, phrases, graphèmes, nombres, lettres Voir Annexe 2	Draw a noughts and crosses grid on the board, and number each box from 1 to 9: Now, divide the children into two teams, and label the teams "noughts" or "crosses". Each team has to answer a question correctly before they can place their symbol into an appropriate place on the board. The winning team is the one who gets a line of three of their symbols on the grid. This can be used with any subject, e.g. maths questions.  You could further extend this idea by using index cards numbered 1-9 and each card has a question. You can get students to choose which card they would like to answer. They get it correct when they can either put noughts or crosses depending on their group / team's symbol.		Divide class into 2 teams – Zeros/Croix. You need 9 pictures/words/phrases set out as 3x3 board for game. Compete to place 0 or X in space depending on the picture/word/phrase/sentence. T could also change the list so that it includes concepts from other subjects (e.g. find the odd one out in a list of countries).		Pupils can suggest another list after a while.	T writes a list of four or five numbers in a line. They should all be answers in a certain times table except one number which should be the 'odd one out'. The pupils need to find the odd number and be able to say why. For example: 16, 64, 27, 8, 32 The odd one is 27 as the others are in the 8x table.

6. the book

Tous les élèves sont détectives. Il s'agit de deviner le coupable choisi par l'enseignant.

- Pour la construction de phrases
- Pour la logique
- Pour le réinvestissement de mots

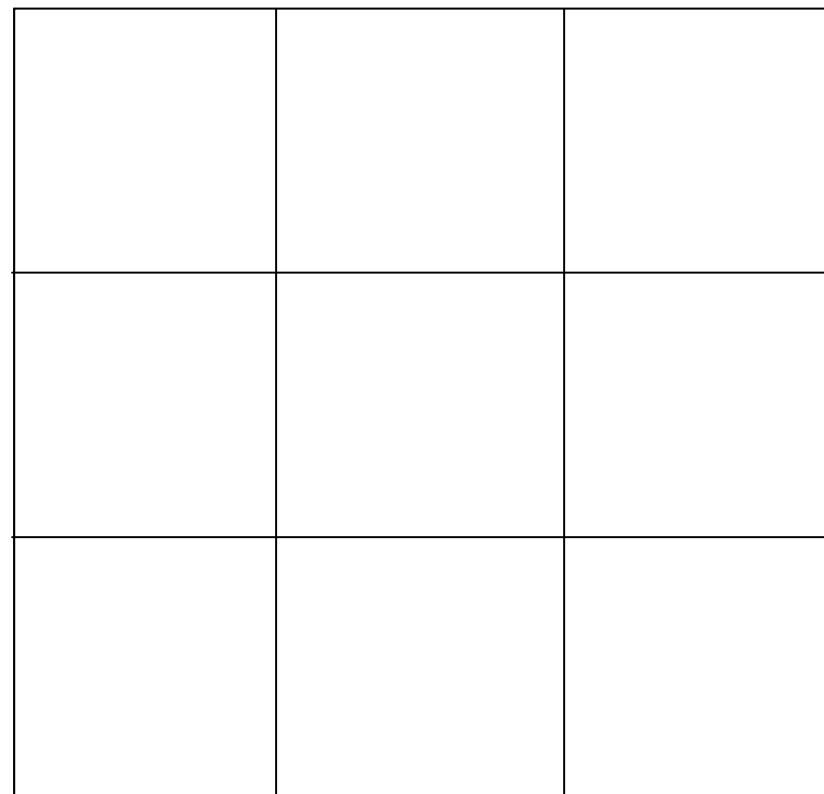

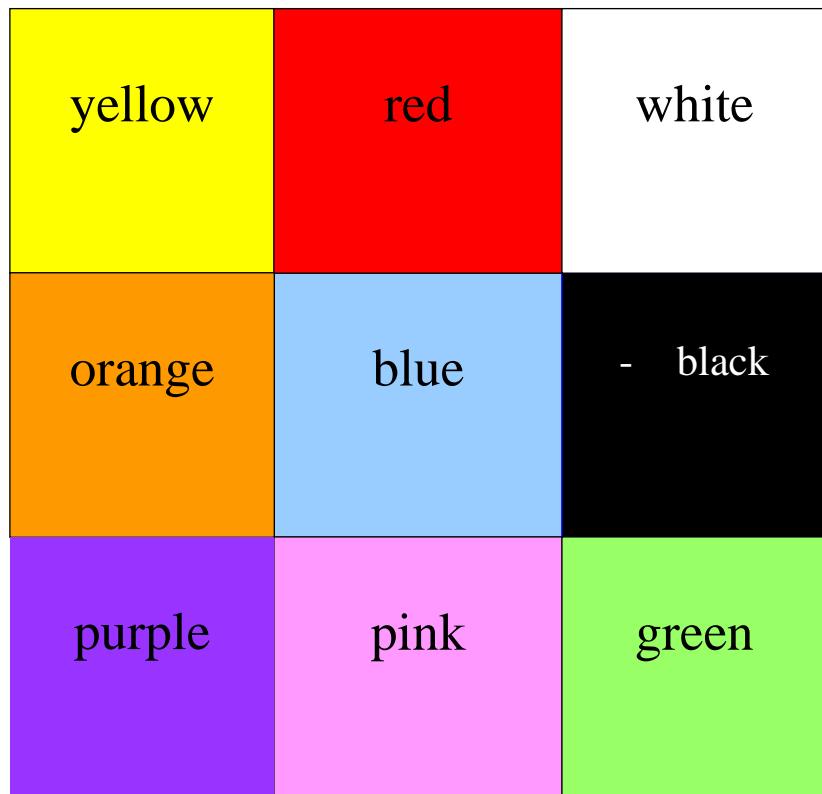

Au tableau, l'enseignant note suivant la dictée de chaque groupe :

Who	With	When
Mister Green V	With the ruler X	X
V	With the door X	on Friday V
V	With the chair X	V
V	With the pen X	V
	With the table V	

Chaque élève énonce une phrase et l'E note dans le tableau : X ou V
L'élève suivant énonce alors une phrase corrigée selon le résultat précédent.

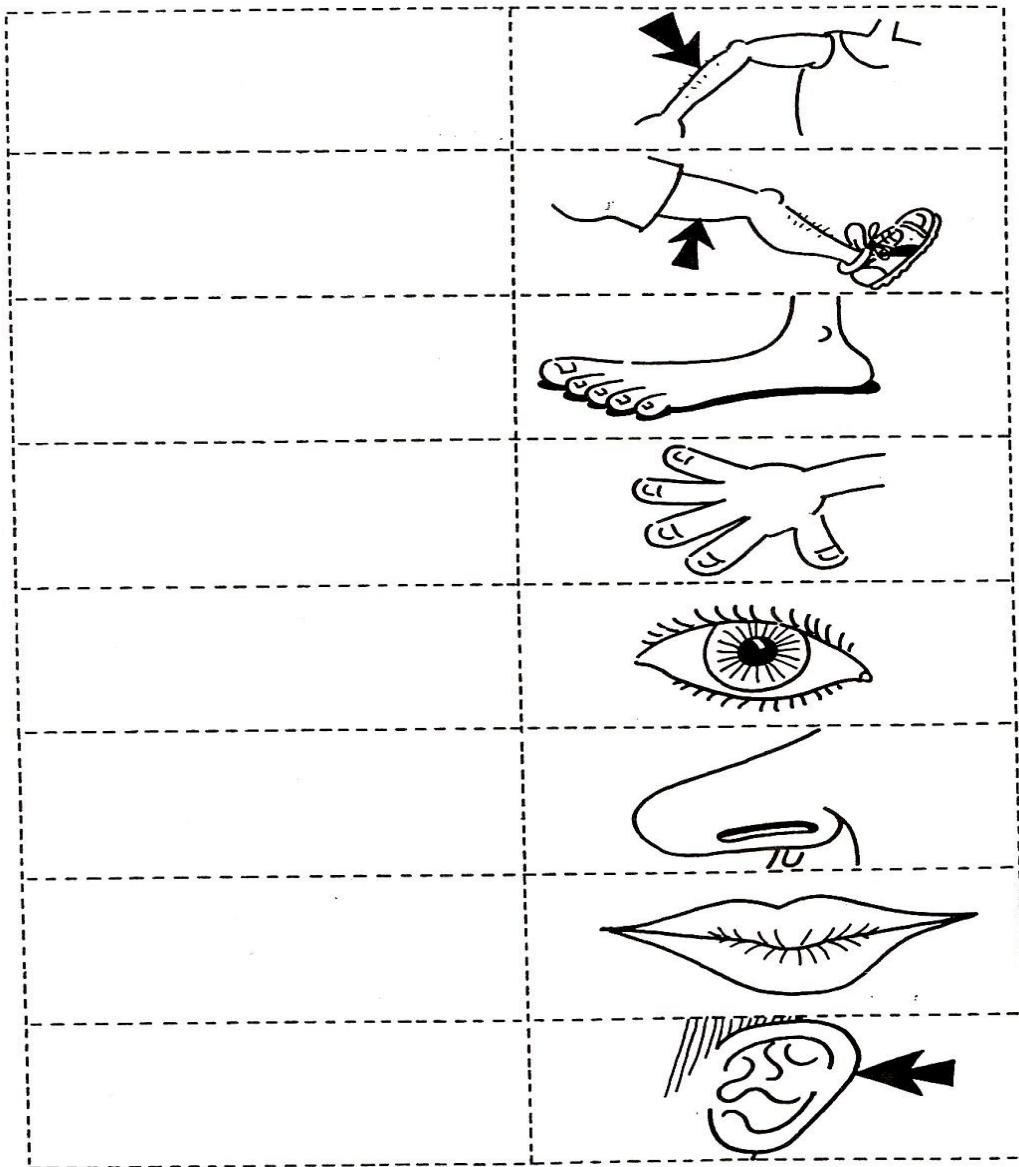

Les élèves ensuite proposent d'autres Who, With, When et font jouer leurs camarades. (personnages célèbres ou héros ou animaux, objets bizarres, mois ou saisons ou années !)

I

Sit in a circle

All the players form a circle and sit down in their places.

Step 3: 'It'

One person is 'It'. She walks around the outside of the circle.

Step 4: Say Duck

As she passes the rest of the players, she taps each of their heads and says 'Duck' each time she does.

Step 5: Call Goose

The person who's 'It' continues to go around the circle saying 'Duck' until she decides to tap someone and say 'Goose!' This person has to chase 'It' as she runs back to her place in the circle.

Step 6: A new 'It'

If 'It' reaches her place before she gets tagged, the person chasing her becomes 'it'. The new 'It' goes around the circle tapping people's heads and saying 'duck' just the same as in the first round.

Step 7: 'It' again

He will call someone 'goose' and be chased back to his place in the circle. If he is tagged, he must be 'It' once more and the person chasing returns to his place in the circle.

As she passes the rest of the players, she taps each of their heads and says 'Duck' each time she does.

Step 5: Call Goose

The person who's 'It' continues to go around the circle saying 'Duck' until she decides to tap someone and say 'Goose!' This person has to chase 'It' as she runs back to her place in the circle.

Step 6: A new 'It'

If 'It' reaches her place before she gets tagged, the person chasing her becomes 'it'.

The new 'It' goes around the circle tapping people's heads and saying 'duck' just the same as in the first round.

Step 7: 'It' again

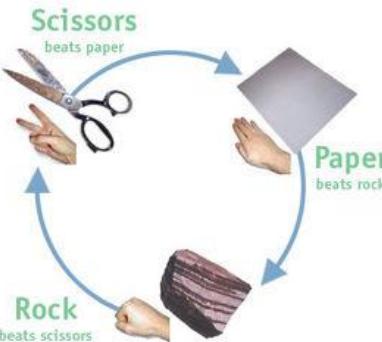

He will call someone 'goose' and be chased back to his place in the circle. If he is tagged, he must be 'It' once more and the person chasing returns to his place in the circle.

The key master points to wherever he/she hears the sound. If they point to the person they have to sit back in their place and another pupil tries to steal the keys. If they get the keys it is their turn to be the key master. This helps to quiet and calm all pupils because they all have to sit silently so the key master doesn't hear the child coming and stealing the keys!

When the murderer winks at you, you must play dead. The detective then must find the murderer. Another element your class likes to add is 'dramatic death' where they are allowed to act. You can add other dimensions such as - more detectives, more murderers._

The wink murder

Communication non verbale

Pour terminer dans le calme

Pupils sit in a circle

One person is sent out whilst one is given the role of assassin.

Using three 'murder weapons' the assassin must try to murder everyone using the three murder weapons in sequence, for example, a smile, a scratch of the head and rubbing of hands.

For each of the murder weapons one of the group is assassinated.

This makes it more challenging for the person guessing and also increases the concentration of the group as they have more signs to look out for.
