

PIPPO

2 to 8 players

50 cards (25 cards with 1 animal & 25 cards with 4 animals)

Win : The player who gets the biggest number of cards wins.

Place the cards with 1 animal on the table, face-up. Place the cards with 4 animals face-down to form a pile.

Turn the first card face-up so that each player can see it.

To win this “4 animal” card, you have to be the 1st player to show and name the missing animal.

For example, if the “4 animal” card shows a blue cow, a yellow dog, a purple cat and a red horse, you have to show and name the green goat.

Game continues until there is no 4 animal cards left.

The winner is the player who has got the highest number of “4 animal” cards.
